Purpose: May aid in micronutrient availability.

Information regarding the contents and levels of metals in this product is available on the internet at <http://www.aapfco.org/metals.html>

GENERAL INFORMATION

Solu-Pro Kelp Powder is designed to be used as part of a well balanced plant nutritional program. Our animal free, plant-derived Icelandic kelp, *Ascophyllum nodosum*, stand out as being of the highest quality sourced from ethically harvested locations. This product can be used for all agronomic and horticultural applications.

MIXING INSTRUCTIONS: To make a liquid concentrate, dissolve 1 pound of Solu-Pro Kelp Powder into 1 gallon of water. Mix and agitate thoroughly until fully dissolved. Always further dilute liquid concentrated Solu-Pro Kelp Powder with water (preferably with an approximate pH of 6.0) to the appropriate concentration and apply to foliage or soil. Suggested rate: Mix 1 lb Solu-Pro in one gallon of water. Apply one quart of concentrate per acre in minimum of 20 gallons water.

DIRECTIONS FOR USE

SPRAY INSTRUCTIONS: Reconstituted Solu-Pro Kelp Powder can be used with a variety of sprayers/plant misters, pump-up, backpack, hose-end, or tractor sprayers. Depending on the type of sprayer you have, simply dilute this product with the appropriate amount of water (see mixing instructions) for your sprayer to cover a specific area. This product also works well with irrigation systems.

GENERAL APPLICATION RATES:

Agronomic Crops: 1-3 lbs./acre per crop in multiple applications

DISCLAIMER

This product may not be available for purchase or authorized for use in every state. In addition, some states, counties and cities may require special licensing and training to sell, purchase or apply the product presented in this brochure. It is the responsibility of the distributor, retailer or professional applicator to verify before product sale / purchase, that the product is approved for the use intended in their city, state and county.
